

How to Login to REACT?

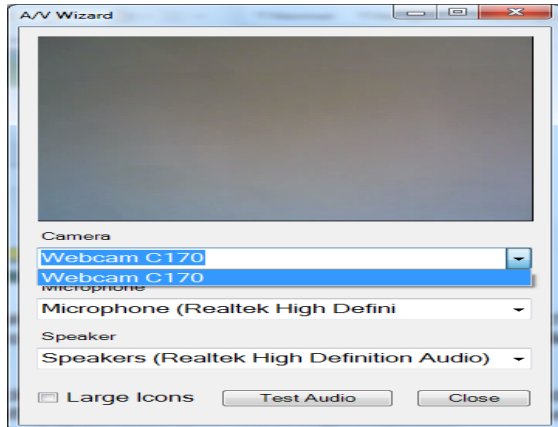

To start, download & install the following:

- [REACT installer 6.6.0](#)

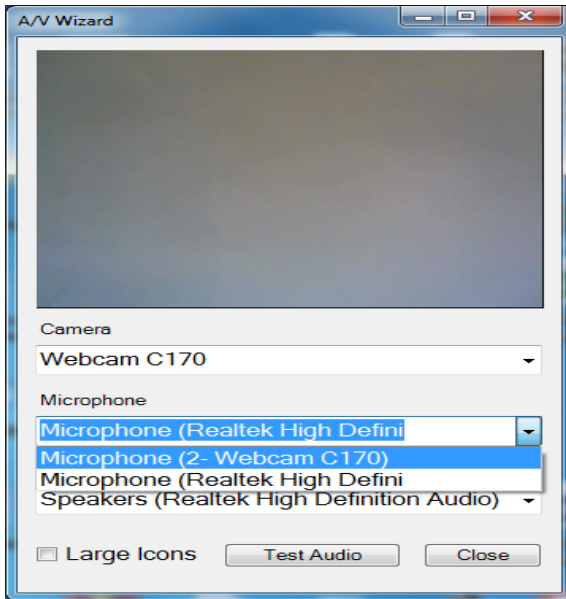

1. Login into React using "**Internet**" Configuration.

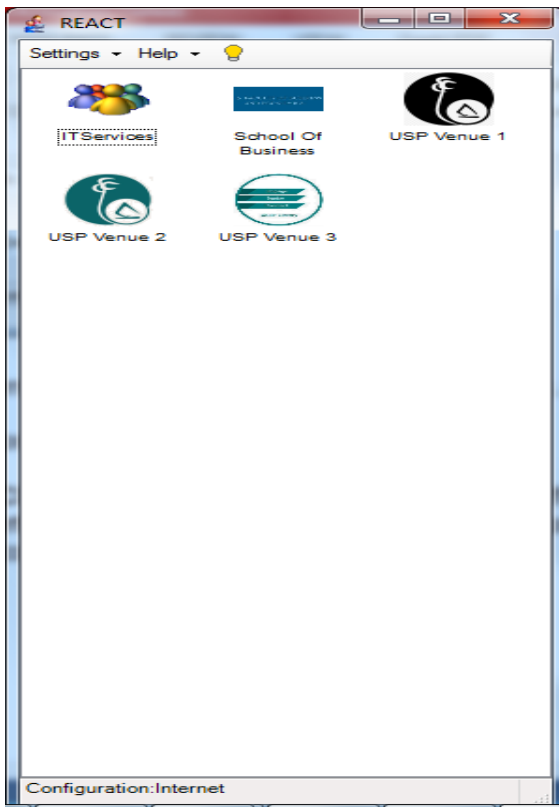

2. Select the camera drop down menu for video support.

3. Select the microphone drop down menu for the correct audio device.
4. Make sure you select "**Test Audio**" to test the mic and speaker.

5. Select the speaker drop down menu for audio support.
6. Venue Window will open as below - "Click" on "Venue 2 or Venue 1" depending on your booking.

7. Click on Actions Tab and Click on **Start Video or Audio** depending on what service you need. Please note that the **Moderator** has the ability to control this service as well.
