### To access the **USP-Guest-WiFi**

1. Click on the **Network Icon**.
2. Make sure the Wi-Fi Option is highlighted.
3. Select the **USP-Guest-WiFi**.
4. Click on **“Connect”**.

You will get the webpage opened so that you can **REGISTER** for a Guest account; if you haven't registered yet

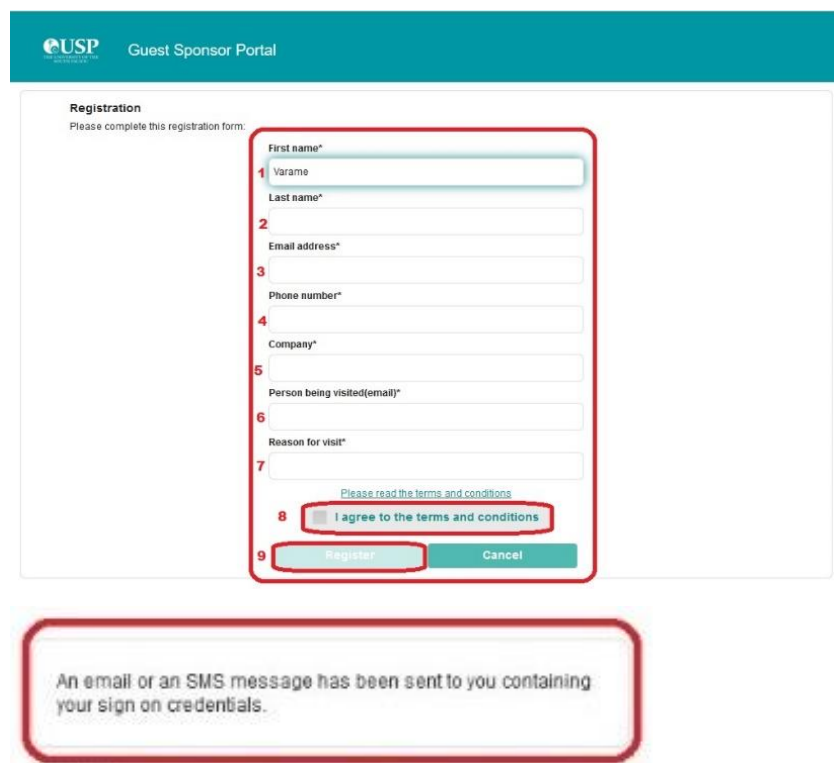

1. Click on **“Or Register for Guest Account”** link

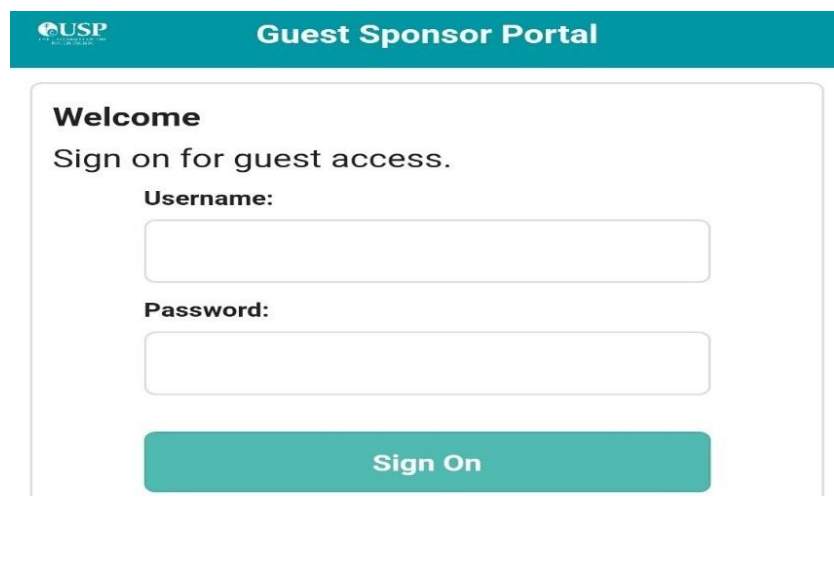

2. All the fields are compulsory so you will need to fill in **fields 1 to 7**.
3. Check the box to select. **“I agree to the terms and conditions”**
4. Select the **“REGISTER”** button to continue.

Once you have submitted all your details, the login page will be loaded.

*\*\* Please allow at least one(1) working day for the necessary checks for your request for access*

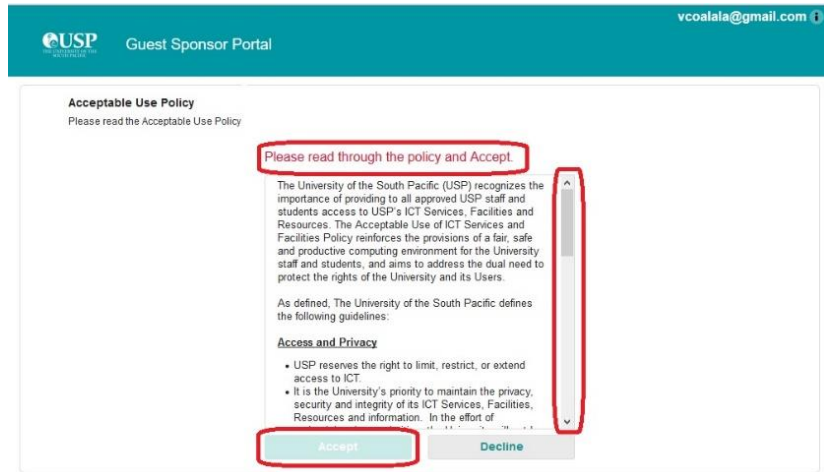

You need to login with the credentials sent to the email address provided during registration.

When your login is successful, you will have to scroll down and read the Policy to the end.

Once you get to the end, you will be able to continue.

Click on “CONTINUE” to get to the next stage, which is security checks.

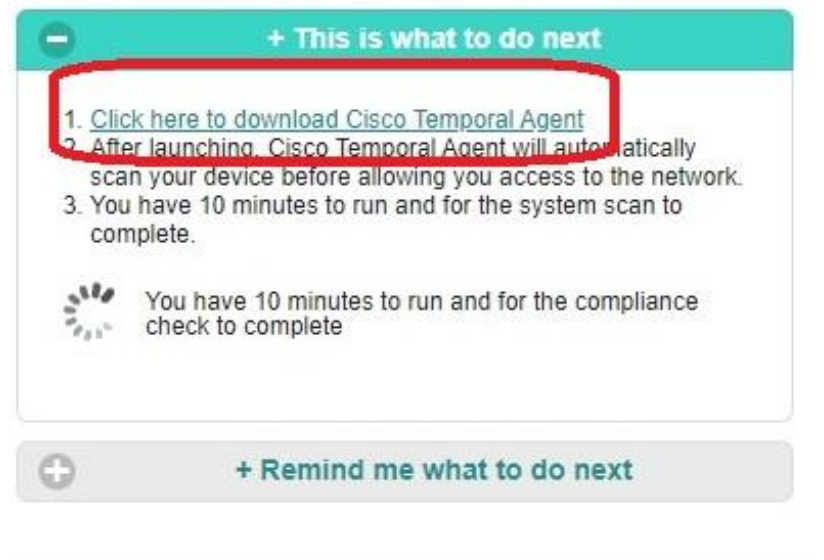

Select the option;  
“This is what to do next”

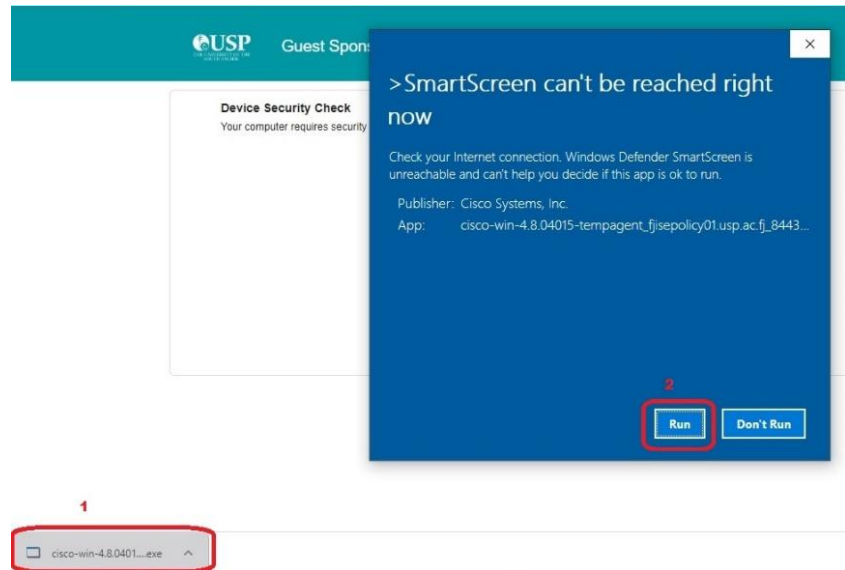

When you get to this dialogue:

- Click on number 1 to download the **Cisco Temporal Agent**

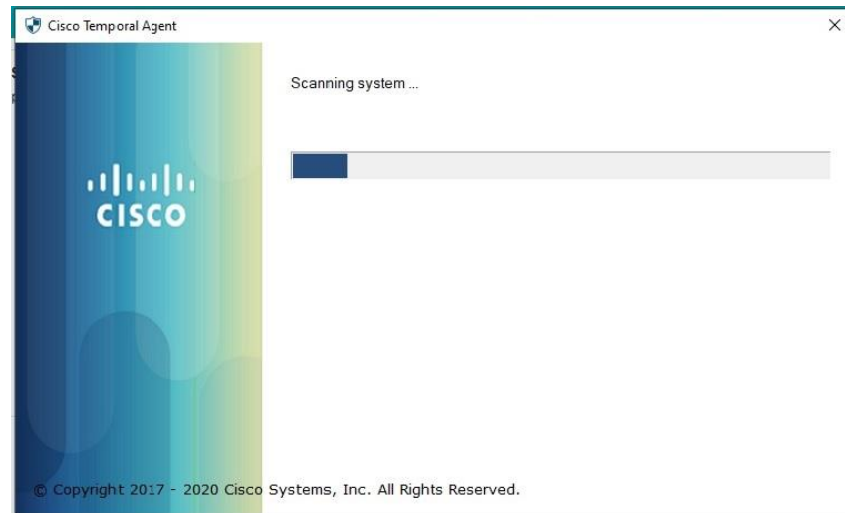

When download completes:

1. Click on the downloaded file labelled 1 to run
2. Click on **RUN** to continue installation

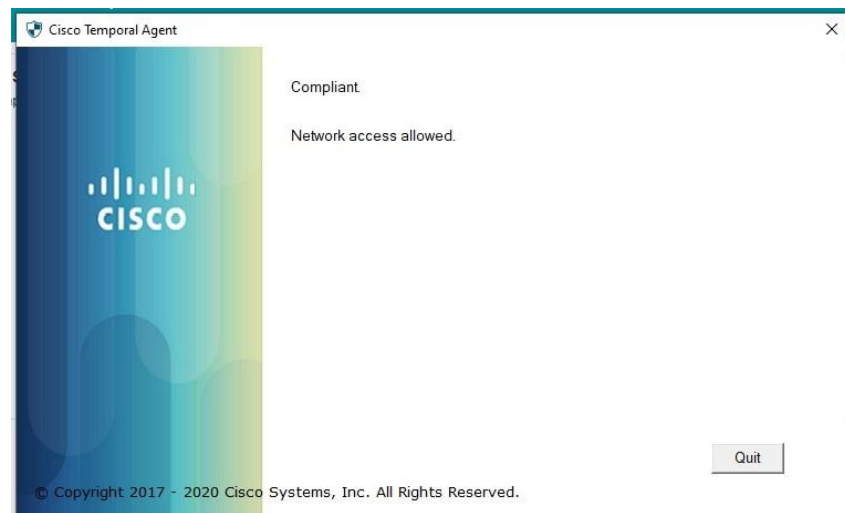

Once the installation has completed, **Security Scan** will commence to;

- Scan is for AV software
- Scan for OS types

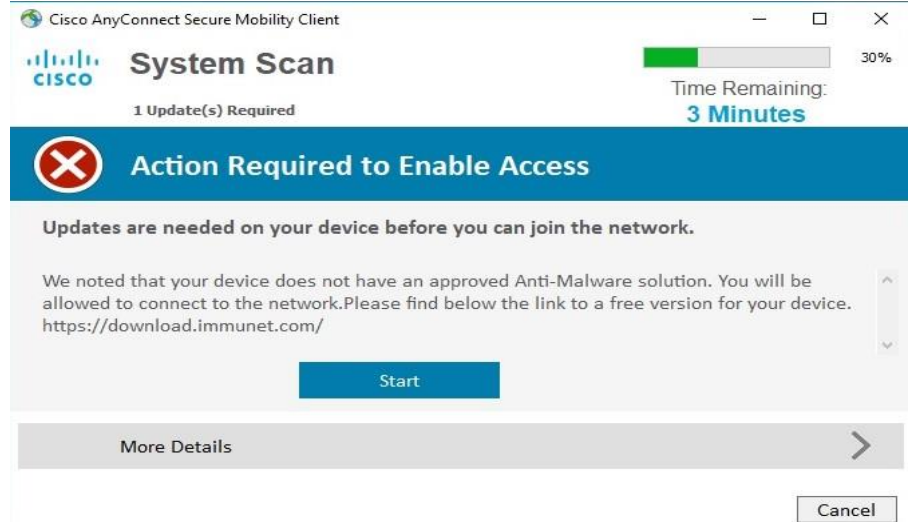

When the scan is completed, it will indicate whether your device is **Compliant** or not.

If scan indicates that your device is **Not Compliant**, please visit your nearest IT Helpdesk.

**Non-Compliant** devices will receive a similar notification like the one on the right

Cisco AnyConnect Secure Mobility Client

**System Scan** 30%

1 Update(s) Required Time Remaining: 3 Minutes

**Action Required to Enable Access**

Updates are needed on your device before you can join the network.

We noted that your device does not have an approved Anti-Malware solution. You will be allowed to connect to the network. Please find below the link to a free version for your device. <https://download.immuneset.com/>
